

Commercial Truck Driver / Warehouse Associate

Position Summary

The Truck Driver will be responsible for loading trucks and daily delivery of HVAC materials and equipment to local jobsites. The driver will primarily operate 26 foot box trucks. Position requires a clean driving record and valid health card to operate the box trucks. Position is 50% driving and 50% filling orders and loading trucks with some light truck repairs.

Responsibilities

- Maintain current appropriate licenses and DOT medical card.
- Loading materials and equipment onto delivery trucks.
- Securing load for proper transportation.
- Pre-trip safety inspection of truck.
- Safe navigation of roadways, following all state and DOT laws and driving regulations.
- Adhere to building and city rules for parking and unloading.
- Communication with dock masters & field foremen upon arrival at destination.
- Assisting with unloading at jobsite.
- Other duties as assigned by Logistics Manager.

The right candidate will have:

- The driving side requires interaction with dock masters and our field foremen, so an upbeat, outgoing friendly attitude is essential.
- The loading shop and material handling side requires organizational and communication skills, the ability to work independently as well as follow direction.
- Candidate must have mechanical ability, knowledge of Boston and metro area, and physical strength to lift 50lbs or more on a regular basis.
- Knowledge or experience in the sheet metal and/or pipefitting field is a plus.
- Due to the early and changing start times, applicants residing on the South Shore is preferred.
- Forklift license/experience and OSHA training a plus.
- Applicants with a Class A license could prove helpful in operating other vehicles within the company's fleet.
- Candidates will be subject to background screening and drug testing.

Work Environment

- Position is 40 hours a week with possible overtime. Early start times and nights or weekends required as needed.
